Children without behavior and/or attention problems are invited to participate in a research study that will examine how biological and environmental factors influence child development.

To participate, the child must:
- Be enrolled in 2nd or 3rd grade
- Be fluent in English
- Live with at least one biological parent at least half the time
- Not be previously diagnosed with autism spectrum disorder or intellectual disability

Eligible families will visit our lab at the Waisman Center at UW-Madison to engage in the following activities:
- Interviews with research staff
- Questionnaires and rating scales
- Computer activities and games
- Providing a small amount of saliva for DNA analyses
- Undergoing a short (1 hour) fMRI scan

For participating in the study, parents will receive:
- No direct benefits (i.e., we provide no clinical diagnosis or treatment)
- $60 for full participation
- A written summary of their child’s cognitive and behavioral functioning

To participate, email us at childstudy@waisman.wisc.edu, call (608) 263-5854, or visit our website: lilab.waisman.wisc.edu
